Effective Educational Methods in C/PHN

The 2008 Association of Community Health Nurse Educators Annual Institute will be a time of excitement and professional renewal as those committed to excellence in community/public health nursing education, research, and practice come together to share our creative teaching strategies and research.

Purpose
To enhance the education of current and future community and public health nurses through use of innovative, effective, evidence-based teaching methodologies in the classroom and clinical practicum.
**Intended Audience**
Public health nurses, managers, public health and community health nurse educators, students, and partners interested in public health nursing issues.

**Conference objectives**
Upon completion of this conference the participant will be able to
1. Describe innovative methods for C/PHN education.
2. Summarize research and evaluation findings related to C/PHN educational programs.
3. Document teaching strategies to address various student learning styles in C/PHN.
4. Compare and contrast the effectiveness of different clinical sites for C/PHN practicum experiences.
5. Describe strategies to encourage nursing students to consider careers in C/PHN, at the generalist and specialist levels.

**Continuing Education:**
Application for nursing contact hours credit has been submitted to the American Public Health Association

**Agenda**

**Wednesday, June 4, 2008**
2-7pm  ACHNE Board of Directors

**Thursday, June 5, 2008**
7:30am-12pm  Registration
8am-noon  ACHNE Board of Directors
1-4pm  Research Workshop: Using Behavioral Surveillance Data in Research. The BFRSS is a national data collection system, coordinated by the Centers for Disease Control and Prevention (CDC), that is designed to enable public health professionals to assess health risk factors known to contribute to or increase the risk of chronic and communicable disease, acute illness, injury, disability and premature death.

*Indu Ahluwalia, MPh, PhD*
Epidemiologist
Division of Adult and Community Health
Centers for Disease Control and Prevention

*Lina Balluz, MPH, ScD*
Lead Health Scientist
Division of Adult and Community Health Centers for Disease Control and Prevention

*Janet G. Marshall, PhD, RN*
Assistant Professor
Florida A & M University
Tallahassee, Florida

Dr. Indu Ahluwalia and Dr. Lina Balluz, Epidemiologists from the CDC, will provide an overview of possibilities and procedures for using the Behavioral Risk Factor Surveillance System (BRFSS) database for research purposes. In addition, Dr. Janet Marshall, a nurse researcher, will discuss her research and experiences using BRFSS.

**Objectives: Participants will:**
- State three opportunities for using national data sets in research
- Describe procedures for accessing data
- Identify application theoretical models to guide research with large databases

Friday Night Social Event

Agatha’s Mystery Dinner Theater (optional)

Agatha’s is a comedy murder mystery dinner theater with audience participation. All shows are original comedy murder mystery plays that take place in the dining room between the courses of the meal. There is no stage; the actors move all around you so you can see and hear from all seats. Two professional actors carry the show and the rest is up to the audience. Participation is encouraged, but not required.

Agatha’s serves a five course meal which is appetizers, soup, salad, choice of entree and dessert. Once there and seated the waiters come around and go over the entrees and you choose at that time. Wine is served with dinner beginning with the soup course.

Optional Friday Night Social Event

Special Friday Night Out on the Town!
Join us for an evening of intrigue, magic, deceit, fun, and puns with Harry Plotter and the Half-Wit Princess at Agatha’s, Atlanta’s original comedy murder mystery dinner theater. First, there’s dinner: five sumptuous courses accompanied by coffee, tea, and wine (there will be a cash bar as well). And then there’s the theater. What would a Plotter be without a plot? It seems that our Harry — fresh from his epic battle with the evil Moldywart — heads for a holiday in beautiful Borelando, Florida. But all is not well down the street at Dizzy World. The Magic Blingdom has a killer on the loose, and the fate of Blonderella’s Castle hangs in the balance. Will our hero save the day before his best friend Hermaphrodite nags him to death? Will Bumbledork’s ghost come out of the closet? Did Princess Sleeping Beauty or Off White have their eyes open long enough to witness a crime? Can the Fairy Godfather (from Jersey, natch) make your wishes comes true? Is Peter Panic or Stinkerbell to blame for the mysterious deaths? Did we mention there will be puns? Your $75 includes all the answers plus transportation, tax, and tip. Don’t miss this classic — or, at least, caustic — whodunnit.
